GBP - Income Model

Portfolio Objective

The portfolio is invested to achieve a high level of income in the portfolio's base currency.

The portfolio will be invested in a range of collective investment schemes, direct equities and fixed interest related instruments on a consistent basis.

TEAM consider the risk level of the model to be moderate, and investors should be prepared to see moderate changes in the value of the investment over short term time periods

Craig Farley

Head of Global Equities

TEAM Global Themes

ESG

Social and Regulatory reforms driving greater awareness of, and compliance with, environmentally concious and ethical business practices.

Resource Scarcity

Growing global population driving capacity constraints of traditional resources, and shift toward renewable and more efficient energy systems.

Demographic Change

Growing Disparity between demographics of developed and emerging nations driving polaristion of sectoral investment strategies.

Shifting Economic Power

Waning Western economic dominance, as cost of honouring social commitments outweighs focus on global expansion. Rise of China.

Technological Advancement

Acceleration of data driven world, online retail, leisure and B2B, driven by telecoms, cloud computing, Al and robotics.(Including Medical & biotech).

Urbanisation

Global shift from rural to urban living, driving concentration of housing, business, education, entertainment and research towards mega cities.
